

A close-up photograph of a single, golden-brown croissant resting on a white ceramic plate. The croissant is flaky and has a glossy sheen, likely from an egg wash. The background is a rustic wooden surface.

Loop's Bakery

Always keep our bakeries CHILLED.
Before serving, heat it up in a preheated OVEN /
AIR FRYER at 150°C for 5 - 7 minutes.

*Please keep in mind that it is just to heat up and
not bake it. Heating time and temperature may
vary according to different ovens.
