LG TOP LOAD WASHING MACHINE

Inverter Direct Drive Motor

The LG direct drive motor with inverter control delivers a reliable, quiet and durable mechanism with less moving parts than the traditional belt and pulley system - that's why you get a 10 Year Parts Warranty on the LG Direct Drive Motor.

Outstanding Performance with 6 Motion Direct Drive

LG washers use a combination of 6 motions, based on hand-washing, to wash your clothes. Simply choose a cycle and your machine selects the best combination of washing motions to give you an outstanding wash, whilst also caring

Stylish Design & Convenience

Conveniently positioning the control panel at the front makes it easier to use and its also water resistant. Behind the control panel is a transparent lid so you can easily keep an eye on things throughout the cycle.

Tub Clean

Your top load washer has a special cycle designed just to clean the tub. Keep your tub in tip-top condition by running this cycle on a monthly basis to help remove detergent build-up and other residue.

Stainless Steel Tub

A Stainless Steel Inner Tub is more effective to help control bacteria growth than tubs made of plastic or containing plastic agitator's. This combined with the Tub Clean program helps maintain a hygienic wash

Troubleshooting with Smart Diagnosis™

With a smartphone & the LG Smart ThinQ™ app the washer can "talk for itself" to find a solution to help save time & money on unnecessary call outs.

LG Commercial Refrigerator YOUR BUSINESS PARTNER

WARRANTY Valid for Business Use

10 YEAR
Linear Inverter Compressor

2 YEAR
Parts & Labor

NO FROST

No more manual defrosting. Intensive circulation of cool air eliminates moisture from both the freezer and refrigerator compartment. This prevents the accumulation of frost on the food and ice on interior walls and keeps power consumption low.

Door Cooling+™

The air vents located front side directs air flow in the door area to help cool the front of the fridge and the door basket area.

Items stored in the door area can cool up to 35% faster than in comparable LG fridges without Door Cooling+.

MOIST BALANCE CRISPER

The lid of the Moist Balance Crisper has a lattice structure that retains evaporated moisture from vegetables, allowing them to stay fresher for longer.

MULTI-AIRFLOW

The air circulates through multiple strategically placed vents, which ensures an equal amount of chilled air reaching each shelf and corner for quick and uniform cooling.

Pull-out Tray

Get access to items stored at the back of the fridge with the help and convenience of the pull out tray.

- 530 x 1300 x 600 mm

LG DUALCOOL with DUAL Inverter

70% Energy Saving, 40% Faster Cooling

SPLIT TYPE AIR CONDITIONER

Deluxe Inverter

SRP 79,999 HS24APD (2.5 HP)	SRP 68,999 HS18APD (2.0 HP)
SRP 55,999 HS12APC (1.5 HP)	SRP 50,999 HS12APC (1.0 HP)

KEY FEATURES		
• Air Purifier	• Dual Protection Filter	• Comfort Air
• Active Energy Control	• Auto Clean	• Smart Diagnosis
• Dual Inverter Compressor	• Sleep Mode	• LG ThinQ
• Auto Operation (Artificial Intelligence)	• Fresh Dry	• Wi-Fi
• Micro Dust Filter	• Jet Cool Operation	• Gold Fin Condenser
	• 4 Way Auto Swing	

Premium Inverter

SRP 97,999 HS30IPC (3.0HP)	SRP 72,999 HS24IPA (2.5 HP)
SRP 61,999 HS18IPA (2.0 HP)	SRP 49,999 HS12IPC (1.0 HP)
SRP 46,999 HS09IPC (1.0 HP)	

KEY FEATURES		
• Plasmaster Ionizer	• Jet Cool Operation	• Dual Inverter Compressor
• Active Energy Control	• Sleep Mode	• LG ThinQ
• Auto Clean	• Comfort Air	• Smart Diagnosis
• Anti Bacteria Air Filter	• 4 Way Auto Swing	• Gold Fin Condenser
• Fresh Dry	• Wi-Fi	• Allergy Filter

Standard Inverter

SRP 65,999 HS24ISS (2.5 HP)	SRP 55,999 HS18ISS (2.0 HP)
SRP 43,999 HS12ISS (1.5 HP)	SRP 38,999 HS09ISS (1.0 HP)

KEY FEATURES		
• Active Energy Control	• Allergy Filter	• Smart Diagnosis
• Auto Clean	• Jet Cool Operation	• Gold Fin Condenser
• Anti Bacterial Air Filter	• Sleep Mode	• Dual Inverter Compressor
• Fresh Dry	• Comfort Air	
• 2 Way Auto Swing		

WINDOW TYPE AIR CONDITIONER

INVERTER
